<b>Overall assessment</b>	
<p><b>10:</b> The thesis is more than excellent in all respects, beyond BA-level. Cannot be improved.</p> <p><b>9:</b> The thesis is excellent. Clear demonstration of in-depth knowledge and insight in the subject matter. Excellent research skills. Evidence of analytical and critical thinking. Well-written, quality lay-out. Good basis for a publication.</p> <p><b>8:</b> The thesis is a good, well-structured and consistent, academic report. The research is well-designed and well documented. Analysis is good and the interpretation is situated in the relevant context. Clear evidence of a good grip on the subject matter.</p> <p><b>7:</b> The thesis is of sufficient quality. Sufficient evidence of knowledge and insight to process scientific information. Data presentation is clear, but analysis and interpretation are lacking in depth and contextualization. Some parts are less relevant or not well-argued. Some errors in language and lay-out.</p> <p><b>6:</b> The thesis is just acceptable. There is evidence of basic understanding, but lack of depth. The text contains irrelevant parts and mistakes in description, analysis and/or interpretation. Research questions have been addressed, but the discussion and conclusions are superficial and not beyond the own results. Contains mistakes in language, lay-out, figures and/or tables.</p> <p><b>5:</b> The thesis is below standard and insufficient proof of basic knowledge and understanding. The structure is messy and difficult to follow. The description of the research is incomplete. Conclusions do not match research questions. Mistakes in different aspects of the thesis. Use of language is not academic.</p>
