

About our organisation:

The One Family Foundation is a family run foundation that aims to help eradicate poverty by working with all stakeholders and initiating fundamental systems change. This collaborative systems change is a form of systems change that creates a distributed ecosystem of development. It aims to shift the development paradigm from large organisation controlled development to a more shared equitable exchange of resources. It recognises that there is no one big answer to complex problems, but instead a plethora of smaller efforts working in harmony that culminate in widespread adoption of new ways of thinking and doing.

Internship advertisement:

The One Family Foundation is a start up and we are currently developing three new projects on; online child protection; shared global education and integration in Europe. We are looking for interns who are interested in these topics.

The internship would allow the right candidate to gain experience in a diverse range of tasks and develop new skills. Additionally they would have the opportunity to work with leading social entrepreneurs in a fast paced start-up global environment.

If they possess a “go getter” mentality, can think out of the box and are hard working and entrepreneurial this is the perfect job!

The working language is English, Dutch language skills are preferable but not necessary.

We are looking for someone who can commit full time and start as soon as possible.

We are based in Amsterdam and have a small fun young team. If this sounds like an interesting opportunity, could they please send their CV and a couple of bullet points, highlighting why they are interested and are the right candidate for this internship, to Shalene Datta at info@onefamilyfoundation.one

Unfortunately there are no remuneration costs available.
