

LEGAL INTERNSHIP

Eurodrug Laboratories is a mid-sized pharmaceutical company globally active in the research, manufacturing, marketing and sales of medicines. We aim to make a difference in the lives of people affected with diseases such as Asthma, COPD, liver disease and others.

The office in The Hague is the administrative headquarters of the group, housing the CEO, Marketing & Sales, Finance, Regulatory and Logistics departments, in addition to our legal counsel. Given the relatively small operation in the Netherlands, you will be in close contact with all departments giving you the opportunity to interact with all the key functions within the organization.

In this internship you will be focusing on managing the company's trademarks, including the status of ongoing applications and valid marks, certificates and other related documentation. In connection with this project you will be required to:

- Review existing trademarks;
- Summarize the key parameters relating to each new trademark (country, mark, product, status);
- Maintain up to date the key data regarding each trademark in excel;
- provide additional support to the legal department day to day activities as required

The ideal candidate for this job:

- Speaks English fluently;
- has basic knowledge of Excel and MS Office programs;
- possesses excellent document analysis and comprehension skills;
- Is not afraid to ask questions;
- Has a proactive attitude.

Previous experience in intellectual property not essential but appreciated.

Candidates wishing to apply for the position should email a C.V. and a motivational letter to the following address: legal@eurodrug.nl

We look forward to your response.
