

Enrolling in Classnumbers by entering the class number

This guide is based on the web-version of uSis

Step	Action
1.	 <p>Click the Tile Enroll.</p>
	<p>Explanation: Enrolling for classnumbers</p> <p>There are different ways to find a course in uSis. If a course doesn't have an fixed examination date, mostly a 'general' classnumber is presented, with no date. When the grade is entered into the system, the correct date will be added.</p> <p>The courses of the faculty of Science that are available for enrollment in the current year have been published through a webpage: Bit.do/exam-enroll On that webpage you will find the classnumbers for the various study programmes If you are unable to find a course, knowing that it should be available in the current year, please mail to usis-fwn@science.leidenuniv.nl. Add the following information to your mail:</p> <ol style="list-style-type: none"> 1. Your studentnumber (from Leiden, but if applicable also your Delft-ID) 2. Your study programme 3. The full name of the course (preferably with the uSis catalog number, 10 characters, starting with 4) 4. (if known) the institute that 'gives' the course 5. A reference to the course in the Electronic Studyguide (or a screenprint) <p>Then we can find out why you cannot find the classnumber or course.</p>
2.	Click the link Enroll by entering the class number .
3.	In the next screen you select the year of study and/or Career level and then click CONTINUE
4.	Screen <i>Select Class number</i> (step 1 of 4) Fill in the selected classnumber and click CONTINUE
