

## Enrollment information Psychology Bachelor, Semester 2 2020-2021

### Important notices:

1. You are advised to register for courses by (a) using the class numbers in this overview and (b) using the website instead of the uSis app (the app does not indicate which groups are NL or IBP).
2. You are allowed to enroll in a maximum of 20 EC of Psychology courses per block, unless you have the explicit permission of your Study Advisor to take more EC. If you surpass this amount, your enrollment may be annulled for any course where the total number of applications surpasses the set course capacity.
3. MVDA workgroups on Tuesdays and Wednesday mornings and evenings are reserved for and restricted to IPS/IBV participants in block 4.
4. In Block 4 there are a number of compulsory vacation days. This affects the meeting schedules of MVDA work groups which meet on Thursday and Friday.
5. Prerequisites for a course need to have been passed and registered in uSis prior to enrollment.
6. When you are unable to register for a course because all workgroups have reached their maximum capacity, please register yourself for the waiting list group. A place will then be arranged for you, about which you will be informed by mail before the course starts.
