Juri: "Have the uSis webapp open in your phone browser - I can’t count the times I was glad to have it. In the morning you’re rushing to Uni, but which room is the workgroup again? A quick check in uSis gives you the schedule for the day, including the times and rooms. Really crucial on hurried mornings."

Juri: "Do exam registration right away. I’ve heard horrible stories of missed exam registration - you can’t take the exams and have to do twice the work next block, which is not fun. Register for exams when you get the first reminder. Also double-check if exams show up in uSis at least two weeks prior to the first exam."
Jara: “Forward your university mail to your personal e-mail. In this way you will make sure not to miss any important messages.”
