

## Handleiding PrinterCut Deploy Client Linux: Ubuntu 24.04

Open je terminal (Ctrl+Alt+T). Navigeer naar de locatie waar je het script `install-and-configure-papercut.sh` hebt gedownload. In mijn geval staat het in de map 'Downloads'.

Commando:

**`cd Downloads/`**

**`ls`**

A screenshot of a terminal window on a Linux system. The window title is "issc@issc-Latitude-5300: ~/Downloads". The terminal shows the following commands and their outputs:

```
issc@issc-Latitude-5300: ~$ cd Downloads/  
issc@issc-Latitude-5300: ~/Downloads$ ls  
install-and-configure-papercut.sh  
issc@issc-Latitude-5300: ~/Downloads$
```

The terminal background is dark purple. The window has standard Linux window controls (minimize, maximize, close) and a search icon in the top right corner. The system clock in the top right corner shows "Aug 9, 13:29".

Voer het script uit

Commando:

**`./install-and-configure-papercut.sh`**

```
issc@issc-Latitude-5300: ~/Downloads
issc@issc-Latitude-5300:~/Downloads$ cd Downloads/
issc@issc-Latitude-5300:~/Downloads$ ls
install-and-configure-papercut.sh
issc@issc-Latitude-5300:~/Downloads$ ./install-and-configure-papercut.sh
```

Voer je wachtwoord in wanneer daarom wordt gevraagd.

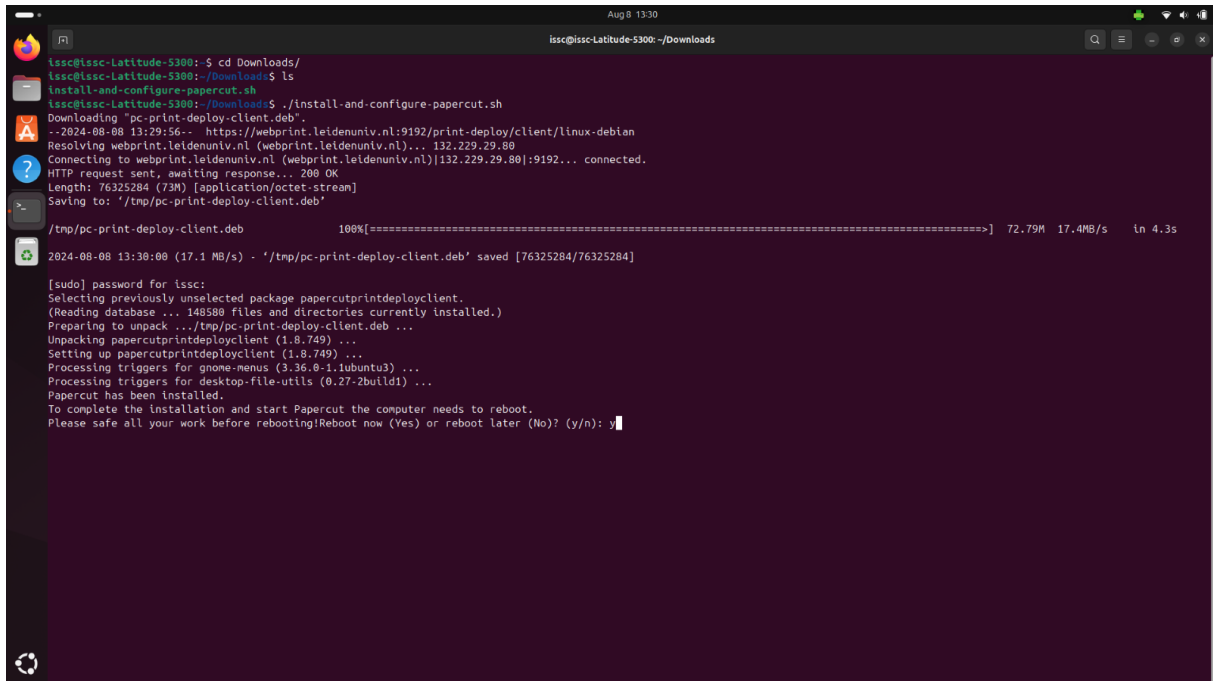

```
issc@issc-Latitude-5300:~/Downloads
issc@issc-Latitude-5300:~/Downloads$ cd Downloads/
issc@issc-Latitude-5300:~/Downloads$ ls
install-and-configure-papercut.sh
issc@issc-Latitude-5300:~/Downloads$ ./install-and-configure-papercut.sh
Downloading "pc-print-deploy-client.deb".

```

Zodra de installatie voltooid is, moet je de computer herstarten om de installatie te voltooien. Zorg ervoor dat al je belangrijke gegevens zijn opgeslagen voordat je 'yes' typt en op Enter drukt!!!

Als je alles hebt opgeslagen, typ dan **'yes'** en druk op Enter.

```
issc@issc-Latitude-5300:~$ cd Downloads/
issc@issc-Latitude-5300:~/Downloads$ ls
install-and-configure-papercut.sh
issc@issc-Latitude-5300:~/Downloads$ ./install-and-configure-papercut.sh

Papercut has been installed.
To complete the installation and start Papercut the computer needs to reboot.
Please save all your work before rebooting!Reboot now (Yes) or reboot later (No)? (y/n): y
```

Na het herstarten zou de browser automatisch de inlogpagina van de PaperCut Client moeten openen.

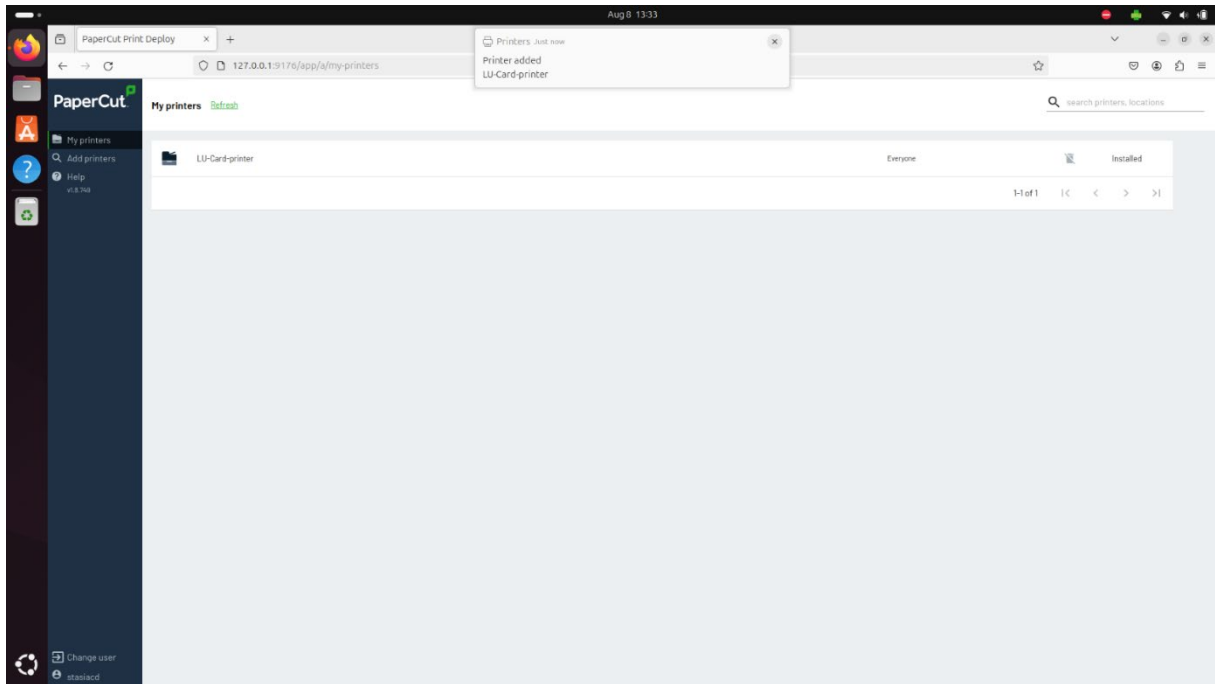

Als dit niet het geval is, klik dan op het PaperCut-icoontje rechtsboven in je statusbalk, klik op 'View Printers', en je browser zal openen met de inlogpagina van de PaperCut Client.

Log in met je **UCLN-account**:

Klik op **'Sign In'**.

Na het inloggen wordt de printerdriver automatisch geïnstalleerd en krijg je een melding dat de printer is toegevoegd.

Vanaf nu kun je printen met je laptop.
