Under Timetable you can see the timetables of all the courses you are enrolled on (in green) and all the courses you have added to your Wish list (in pink).

Here you can select courses you might like to follow in the future. You can then view and compare the timetables of these courses via Timetable.

Please note that adding a course to your Wish list is not the same as enrolling on the course. This must be done via Class enrollment.

Here you can find your grades presented in chronological order. Grades are shown in two lists:

- Results for exams and papers (Tests)
- Final course grades (Courses)

Here you can view the progress of your studies. Check, for example, how many credits you have obtained and which courses you still need to complete.
Via Class enrollment you can enroll on courses. Just select your programme level and subject, then make your choice.

Here you can find the locations and opening times of all Leiden University buildings, both in Leiden and The Hague, including libraries, restaurants and cafés.

Are you looking for a computer in one of the university buildings? Find out where you can log in and get to work via PC availability.

Via this tile you can access the e-prospectus.

Log in once for quick and continuous access to Blackboard.

The latest news from your faculty and study programme.

Here you can find a range of practical information: from your Education Information Centre and the emergency phone number, to the University Sports Centre.

Take a look in the frequently asked questions. If you can’t find what you’re looking for, contact the ISSC Helpdesk.
