If students do not pay their own tuition fee, they are obliged to issue a statement in which they agree that a third party makes payment on their behalf. The third party could be, for example, a parent, organisation or employer. This so-called 'power of attorney' is mandatory according to regulations laid down by the Dutch Ministry of Education, Culture and Science.

Both the student and the third party must complete the statement below, making sure to sign where required. This statement must be scanned and returned as digital attachment.
